## Rotary Welsh Schools Disability Gymnastics Championships 2024

## Chair based Rhythmic Routines

## Face to Face and Virtual Competition

Outlined below are the routines for the wheelchair rhythmic gymnastics competition in ball, hoop, and ribbon.

The competition is split into 4 levels and the gymnasts must compete at the same level on each piece of apparatus. We have changed them slightly to make the routines flow a bit easier. As with all routines there will be certain individuals who will be physically unable to complete all movements. I have written routines that are a little easier and can be used by children/young people whose disability does not allow for changing the apparatus from hand to hand during the routines. These can be found in a separate document.

Participants can use their own apparatus or use the equipment from Welsh Gymnastics.

Teachers or helpers can give as much support as needed without any judging deductions. Gymnasts can do all three routines together or if they prefer, they can go around with their group. The aim of the competition is to give children and young people the opportunity to compete and the easier and more comfortable we make it for them the better.
